

# CS5103 Assignment II

For this assignment, in pairs of two students, you will read a research paper, and do a 15 minute presentation to explain the main idea of the paper to our class. You need to prepare about 15 pages of slides for the presentation, and you may also need to answer other people's questions if there are any.

The presentations are scheduled in five classes from Oct. 13th to Nov. 10th, and paper presentation has been pre-scheduled for each paper.

Please go to the following link to choose which paper you would like to read and present. Just input your name after the paper title.
